# Confluence Numbered Headings - still free

The Confluence Numbered Headings plugin is one of those plugins that was free for many years, then went commercial.

Until recently it still worked, but not any more. As of Confluence 7.1 and later the UPM flags the old version as incompatible:

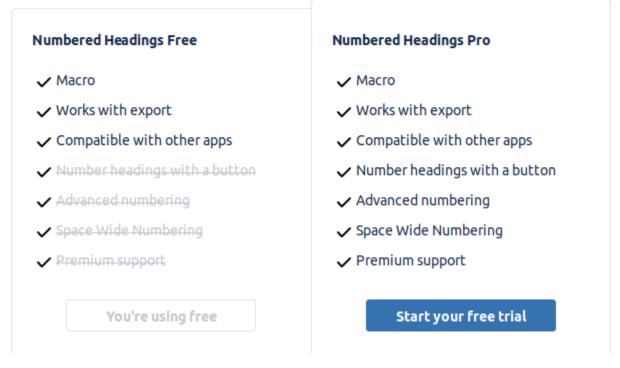

The effect of this incompatibility is subtle: Numbered Headings works fine just as before, but now if you try to insert any macro that has a body using '+' icon, you get an endless spinner, and a Javascript `AJS.clone is not a function` error:

Paragraph

Insert 'Table of Contents' Macro

```

The good news is that after upgrading, the plugin is still free: it just as a 'Pro' version:

Numbered Headings

You are using Numbered Headings Free. Upgrade to Numbered Heading Pro and benefit from a better writing experience.

Numbered Headings Free

- ✓ Macro
- ✓ Works with export
- ✓ Compatible with other apps
- ✓ ~~Number headings with a button~~
- ✓ ~~Advanced numbering~~
- ✓ ~~Space Wide Numbering~~
- ✓ ~~Premium support~~

You're using free

Numbered Headings Pro

- ✓ Macro
- ✓ Works with export
- ✓ Compatible with other apps
- ✓ Number headings with a button
- ✓ Advanced numbering
- ✓ Space Wide Numbering
- ✓ Premium support

Start your free trial

So upgrade away, and if your budget permits, support the plugin authors by paying for the Pro version.
